Bavaria Gulf launches tender for two projects

Process to be completed in about four weeks

Staff Report

Dubai German boutique real estate developer Bavaria Gulf yesterday said, it has floated a construction tender for its recently unveiled residential communities, Sandoval Townhouses and Sandoval Apartments projects in Jumeirah Village.

Launched in the second half of 2007, both Sandoval Townhouses and Sandoval Apartments, which are quality residential offerings, were sold out during their launch.

Raymond Lefevre, managing director of Bavaria Gulf, said, "Having elicited an excellent response from both investors and homeowners, it is important for us to entrust the timely delivery of these projects to a contractor with wide international and local experience, through a global tendering process."

To be concluded in about four weeks, the tendering process has been designed to ascertain the best-suited contractor for undertaking the entire construction and civil works, for the two projects.

"The tendering process will be absolutely transparent and in line with our corporate ethos," Lefevre added.
